Bibliography 1982-1983

This is the second installment of the current citations in butterfly biology series. See the previous issue of the Journal of Research on the Lepidoptera for more 1982 citations.

the granulosis virus of *Pieris rapae* (Lepidoptera: Pieridae) by the parasitoid *Apanteles glomeratus* (Hymenoptera: Braconidae). Environ. Entomol. 12: 166-170.

Turner, J. R. G., 1983. Mimetic butterflies and punctuated equilibria: some old
Volkovich, T. A. & N. I. Goryshin, 1982. The estimation of day-length in the
threshold zone and influence of the graduality factor on the photoperiodic
reaction in the large white butterfly, Pieris brassicae (Lepidoptera, Pieridae).
Entomol. Obozr. 61:454-462.

Watanabe, M., 1983. Radial growth patterns of a pioneer tree, Zanthoxylus
allanthoides (Rutales: Rutaceae), related to the population dynamics of a
swallowtail butterfly, Papilio xuthus (Lepidoptera: Papilionidae). Jpn. J.
Ecol. 33:253-262.

Watt, W. B., 1983. Adaptation at specific loci. II. Demographic and biochemi-
cal elements in the maintenance of the Colias PGI polymorphism. Genetics
103:691-724.

Watt, W. B., R. C. Cassin & M. S. Swan, 1983. Adaptation at specific loci. III.
Field behavior and survivorship differences among Colias PGI genotypes are
predictable from in vitro biochemistry. Genetics 103:725-739.

Webb, C. J. & K. S. Bawa, 1983. Pollen dispersal by hummingbirds and butter-
flies: A comparative study of 2 lowland tropical plants. Evolution 37:1258-
1270.

Wickman, P. & C. Wiklund, 1983. Territorial defense and its seasonal decline in

Wiklund, C. & A. Persson, 1983. Fecundity, and the relation of egg weight varia-
tion to offspring fitness in the speckled wood butterfly Pararge aegeria, or
why don’t butterfly females lay more eggs? Oikos 40:53-63.

Wiklund, C., A. Persson & P. O. Wickman, 1983. Larval aestivation and direct
development as alternative strategies in the speckled wood butterfly, Pararge

Williams, K. S., D. E. Lincoln & P. R. Ehrlich, 1983. The coevolution of Euphy-
dryas chalcedona butterflies and their larval host plants: 1. Larval feeding

Williams, K. S., D. E. Lincoln & P. R. Ehrlich, 1983. The coevolution of Euphy-
dryas chalcedona butterflies and their larval host plants: 2. Maternal and host plant effects on larval

Wojtusiak, J. & P. Raczka, 1983. Silking behavior of the swallowtail Papilio
macaon and the peacock Vanessa io L. (Lepidoptera, Papilionidae, Nymphali-

Yamamoto, M., 1983. Microhabitat segregation in 2 closely related pierid but-
